

Product Code

UTA-0360-C Laboratory Type Jaw Crusher, 380 V 50 Hz, 3ph
 UTA-0365-C Laboratory Type Vib. Disc Mill, 220-240 V 50-60 Hz

UTA-0360 is used for crushing, UTA-0365 is used for grinding cement clinker, ceramics, basalt, chamotte, construction materials, alloys, coal, coke, feldspar, glass and various materials in the laboratory when smaller sample sizes are required for testing.

Three models are available (see Technical Specifications) depending on different feed sizes, output grain sizes and capacity requirements.

Technical Specifications

	UTA-0360-C	UTA-0365-C
Feed Size	100 mm	<15 mm
Output Grain Size	<500 µm 0-8 mm	38 µm max. 10 µm
Capacity	150 kg/h	(*)
Dimensions	482x1044x1015 mm	650x730x1150 mm
Weight	250 kg	330 kg
Power	4 HP	1,5 HP

(*) Dijital setting of grinding time from 0 up to 999 h or 999 min. or 999 seconds
